## CONDITIONS OF SALE.

---

1. The Cattle will be exposed separately according to the numbers in the following Catalogue. The Auctioneers reserve the right to refuse any bid without assigning any reason. The highest offerer of each lot will be preferred to the purchase (subject to Article 3)—each offer exceeding the former by at least one guinea. All entries must be clearly tattooed in the ear with their correct tattoo letters and numbers in accordance with the Regulations of the Shorthorn Society, and any animal found not being so tattooed will be reported to the Directors of the Scottish Shorthorn Breeders' Association, and such animal may be rejected from the Show and Sale. Twins must be so described, also whether twin with a bull or heifer.

2. The pedigree of each animal is guaranteed to be correct and registered or accepted for registration in Coates' Herd Book by the person whose name appears as the Exposer, but every animal is sold subject to all faults otherwise, with the exception that if a bull has only one Testicle down, the Owner must make intimation to this effect in the Catalogue. No liability whatever is undertaken by the Auctioneers for the statements appearing in the Catalogue or made at the Sale. The Exposer who supplies such statements is alone responsible for any error or mis-statement. Animals affected with any disease of an infectious nature or animals out of an infected Herd are strictly prohibited from being brought to the premises occupied or used by the Company at the time and should any such be brought, the Owner or Consigner will be held responsible for all damage or loss occasioned thereby.

3. The Exposers reserve the right to fix a reserve price, and to announce same before the bidding begins or during the time of the bidding or at the conclusion thereof. The right to bid by or on behalf of the Seller in terms of the Sale of Goods Act, 1893, is expressly reserved. Every animal must be the *bona fide* property of the Exposer at the time of Sale.

4. Immediately after each purchase is declared, the risk of the animal shall be exclusively with the Buyer, and it is declared that until a settlement shall be made in terms of these Conditions the delivery of the animal shall be suspended. The right of property shall not pass until the price is paid.

5. Immediately after the Sale all lots must be paid for in cash to the Auctioneers. The price being paid, each lot shall be taken away at the Buyer's expense within one day after the sale thereof. Lots shall only be removeable from the Auctioneers' possession on a written order from their clerk, and any lot removed in contravention of this condition may be recovered *brevi manu* by the Auctioneers.

6. Should any Buyer fail to pay for and remove his purchase in compliance with the above Conditions, the Auctioneers in their option may either (a) sue the Buyer for the price and interest thereon at the rate of *Six per Centum per Annum* and for the keep of, and any other expense incurred by them in connection with such purchase, or (b) re-sell the Lot either publicly or privately and recover from the defaulting buyer the deficiency (if any) attending such re-sale and interest thereon as aforesaid together with the keep and all other expenses. In either case, the Auctioneers shall have the right to sue at their own instance without the consent of the Owner or Consigner, and no defence

whatever in such action shall be competent to the Buyer who shall have recourse against the Owner or Consigner alone.

7. If any animal be sold with option to "Test," such condition shall not operate to suspend the sale or the passing of the risk but shall have effect only as follows:—

- (a) The condition shall be provable only by entry in the Auctioneers' Sale Roll.
- (b) The option to test shall only operate in the case of bulls realising 75 guineas or over, and females realising 50 guineas or over. The Purchaser may require the Intradermal or Subcutaneous Test for Tuberculosis. The Purchaser may also require the animal to be submitted to an Agglutination Test for Contagious Abortion at a Laboratory approved by the Ministry of Agriculture, and to a test for John's Disease with the biological product known as Johnin. Notice in writing of the intention of the Purchaser to carry out such tests must be given to the Auctioneers before, or immediately after, termination of the Sale.
- (c) The test shall be made by a Veterinary Surgeon to be mutually chosen between Buyer and Seller or, failing their agreement, to be chosen by the Auctioneers.
- (d) The test or tests shall only be made when the animal is (in the opinion of the chosen Veterinary Surgeon) in a fit state for testing. The time for testing shall be limited to three weeks after Sale, with power, however, to the Auctioneers to extend the period of testing from time to time if they, after hearing the chosen Veterinary Surgeon, deem such extension reasonable.
- (e) The declaration of the chosen Veterinary Surgeon that the animal has been duly tested and the result of his test shall be final and binding on both Seller and Buyer.
- (f) If the animal be so declared not to have passed the test, the Buyer shall have the right to require the Seller to re-purchase the animal at the price of the original sale. Such requisition shall be notified in writing to the original Seller, and from the date of receipt of such notice the risk and expense of the animal shall be transferred to him.
- (g) In any case where the option to test is exercised, the Auctioneers shall be entitled to retain the price until the result of the test is declared.
- (h) The expense of any such test or tests shall be borne by the Purchaser.

8. Should an Exposer wish to warrant a bull as being a good server and stock-getter or such other qualified warranty as the Exposer may wish to give, such warranty shall be included and shall form part of the description of the bull as shown in the printed Catalogue. Should a warranty of good service and stock-getter be given, and should it be established subsequent to the Sale that the bull is incapable of service, or while capable of service is incapable of getting stock, a Purchaser shall be entitled, within sixteen weeks from the date of the Sale, to intimate such incapacity to the Vendor, and if such

incapacity shall be proved by a Certificate of Veterinary Surgeon mutually chosen, the Vendor shall be bound to accept delivery of the bull and refund the Purchaser the full purchase price of the bull. To establish a Claim under this condition, the Purchaser must give notice of his claim within sixteen weeks of the Sale. Should the Purchaser and Vendor not agree upon the appointment of a Veterinary Surgeon to examine the bull, the Auctioneers shall appoint a Veterinary Surgeon for this purpose and shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid. In his certificate the Veterinary Surgeon must state that he has examined the bull, that its impotence or incapacity is not due to injury suffered or illness contracted since the purchase, and that he has also examined the cows or heifers upon which the bull has been tried and found them in a normal breeding state or condition, and he shall give his reasons for declaring the bull ineffective and incapable of getting stock. Notwithstanding the right of the Purchaser to Vendor shall in no case be liable under this condition for a sum exceeding the amount for which the bull was sold (plus any expenses which may be awarded by the Auctioneers against the Vendor in terms of this paragraph) less its saleable value at the date of the Veterinary Surgeon's Certificate. In respect of bulls purchased for export, no claim under this Article shall be valid unless made prior to the shipment of the bull or within sixteen weeks of the Sale whichever is the earlier date.

9. All females born after 1st August, 1949, must be certified to have passed the Agglutination Test for Contagious Abortion within three months of date of Sale, or must have been vaccinated. The blood samples for the Agglutination Test must have been taken by a Veterinary Surgeon and submitted by him to an approved laboratory. Animals having passed the test must not, prior to the Show and Sale, come into contact with any animal that is known to be infected with Contagious Abortion. The entry of any animal which has not passed the Agglutination Test but which has been vaccinated, can only be accepted providing that one of the following certificates (signed by a Veterinary Surgeon) is supplied:—

- (a) That the animal was inoculated with Br. Abortus Vaccine No. 1 (Strain 19) when between four and eight months old and within three years of date of Sale, or
- (b) That the animal having passed the Agglutination Test was then vaccinated within fourteen days with Br. Abortus Vaccine No. 1 (Strain 19) when over eight months old and within three years of date of Sale, or
- (c) That the animal having been previously vaccinated in accordance with either (a) or (b) was re-vaccinated within three years of the previous vaccinations and not more than three years prior to date of Sale.

10. All cows and heifers that are stated in the Catalogue as having been served or artificially inseminated not less than twelve weeks before the date of Sale, or stated as having been running with a bull between dates (the later of which is not less than twelve weeks before date of Sale), will be guaranteed to be in-calf to the service date or between dates and to the bull stated in the Catalogue, unless any alteration is announced at the time of Sale. Heifers which have not had a calf and which are sold unserved shall be so guaranteed. All claims which may

be competent under this Condition must be intimated to the Auctioneers within sixteen weeks of the Sale, but in respect of females purchased for export a claim must be made prior to the shipment of the animal or within the said period of sixteen weeks whichever is the earlier date. To establish any claim under this Condition the Purchaser and Vendor shall mutually agree upon a Veterinary Surgeon to examine the animal, and failing agreement a Veterinary Surgeon shall be appointed by the Auctioneers. In his Certificate the Veterinary Surgeon must state that the condition of the animal was not due to any injury or disease contracted since the Sale. Should a claim be established and made as a result of the Veterinary Surgeon's Certificate the Vendor shall be bound to accept delivery of the cow or heifer (as the case may be) and refund to the Purchaser the full purchase price of the animal which shall be at the Vendor's risk and expense as from the date of the notification to the Vendor of the Veterinary Surgeon's decision. Failing agreement between the Vendor and the Purchaser the Auctioneers shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid.

11. No undertaking of the Auctioneers or their servants to take charge of any animal after the Sale or to forward it to its destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of the foregoing conditions.

12. If any dispute—other than (a) a dispute or question relating to the conduct of the Sale and (b) a dispute for the settlement of which provision has been made in terms of these Conditions—shall arise regarding any Shorthorn animal registered in Coates' Herd Book and sold at this Sale, such dispute shall be referred to the Council of the Shorthorn Society of Great Britain and Ireland as sole Arbiters for settlement, and the decision of the Council shall be final and binding on all parties to the dispute.

13. Private Sale. Each animal entered in the Catalogue must be offered for sale by Auction before any private sale shall be allowed or recognised by the Auctioneers. The usual commission must be paid on all animals afterwards sold privately within the premises of the Auctioneers.

14. Without prejudice to the foregoing Conditions of Sale it is hereby expressly declared that the Exposer by selling and the Purchaser by purchasing any animal in terms of the Conditions of Sale shall be bound by the above Conditions of Sale and shall be bound, where a dispute is referred to a Veterinary Surgeon, to accept the verdict or decision of the Veterinary Surgeon as final and binding on both Exposer and Purchaser. Neither party shall have any recourse to law in respect of said dispute otherwise than on the ground of fraud.

15. The Auctioneer is appointed Judge of the Sale, to whom are hereby submitted all disputes and differences of any kind which may arise at and in relation to the Auction, either between Exposers and Offerers or among Offerers themselves. His decision shall be final and binding on all parties.

## *An Appreciation*

---

THE Beaufort Castle Herd does not require an introduction, for it has been breeding quality cattle from the best families since the Scotch Shorthorn was given a place in Coates' Herd Book.

The Beaufort Stud goes back to the days when Champion of England was consolidating the greatness of Sittyton; it was Broadhooks 10th by the Champion, purchased in 1869 that founded the Lovat Herd and thereby ensured the survival of the great Broadhooks family. At Beaufort the tribe has continued down the years and its representatives secured by breeders all over the world.

It is interesting to know that the Actresses, celebrated at Bapton (see Bapton Umpire) are descended from a branch of this family, the Beaufort Ellen Terry Broadhooks; Beaufort Broadhooks Champion, sold at Perth after the First World War, held the record price obtained at that centre for over ten years.

There are other famous pedigrees—Queen of Rothes cattle from Beaufort are descended from Phantassie Fairy Queen and the great bull Knickerbocker, whose progeny were first known as Fairy Queens and Beaufort Prides. From this family backed with Royal Star blood such notable sires as Knight of Collynie, Cupbearer of Collynie his son, Millhills Rothes King are descended.

The sire of Champion of England was Lancaster Comet, the most influential bull of those far off days to be brought North. Some direct descendants are in this catalogue; the Lancaster family have bred extremely well at Beaufort and the present owner considers the Lancaster cows second to none in the present herd. Stock bulls of this breeding include Beaufort Legion, Double Event and Beaufort Field Marshal, recently used at Pitpointie, Uppermill, the Coldoch, Crieffvechter, and by Major Robertson of Colton. Recently the great show cow Beaufort Lancaster 34th has won many prizes at international shows and championships for Lord Trent.

The Clipper tribe, tracing to Lutwyche and Newton stock, are impregnated with the blood of Corner Stone and Star of Morning; equally good are the Princess Royals. This family in the last ten years have produced Beaufort Royal King, Royal Salute, Monarch and Royal Prince, all shipped to the Argentine where they met with outstanding success; also Beaufort Royal Hawk who has

made Shorthorn history in Ireland. Beaufort Princess Royal 25th, well-known show cow at Uppermill, also stems from this family. The Augusta cattle have proved equally successful, and there are others too numerous to mention, Jilt, Countess Farewell, Miss Ramsden, Secrets, Goldies, and Elizas and Rosewoods.

For three generations of the Lovat family, successful stock bulls have carried on Shorthorn traditions and added lustre to the breed at home and overseas. During the past sixty years the Argentine has been a steady buyer of the top bull calves, but apart from two memorable draft sales in 1920 and 1945, the females, with few exceptions, have been retained in order to improve and strengthen the herd.

Hardiness, long life and productivity have always been the keynote at Beaufort. In Lord Lovat's own words, "I have tried to breed quality cattle that could thrive on short commons; eat straw and turnips between November and April, go out and get fat on grass, raise a calf and repeat the performance annually. I have no time for the pony type of bull favoured by passing fashion and whatever mistakes have been made at Beaufort, breeding from cattle with black noses, small bones and flinty horns, has never been part of my programme."

In recent years the attraction of the show-yard with its elaborate preparations has not figured in practical politics, but in the old days the herd representatives used to sweep the boards, and New Year's Gift, a Broadhooks bull sold to Queen Victoria, still holds the unique distinction of winning supreme honours in Scotland, England, Ireland, and France, four international shows in one season.

Since the war, at the Royal Shows, with only a few entries forward, Beaufort cattle have won the supreme championship at the Royal, the female championship, reserve female championship three times and the male championship; also the Bullrich Cup at the Highland Show, 1950, for the best pair of animals bred by the exhibitor. Beaufort-bred representatives figured prominently this year both at Aberdeen and Cambridge, and at the great Argentine Palermo Show, the champion female for the second year in succession was bred by a Beaufort bull.

The young cows in this catalogue are got by the beautifully-bred Broadhooks bull Bapton Battleship whose heifer calves averaged 475 guineas in Inverness in 1945, and the Rosewood bull Millhills Arthur who cost 1700 guineas at Perth, when he was one of the champion group of the best three bulls in the 1945 Show. The yearling heifers and heifer calves are by the stock bull Cruggleton Pentland Firth, whose pedigree can be seen at the back of the catalogue. His first crop of bull calves sold this year,

averaged no less than £1066 each and competent judges consider he is getting some of the best stock in the country.

The breeding of animals is creative work, and the breeder's work is an art as he works towards attaining an ideal that exists in his own mind. There is no yardstick by which to measure the ideal Scotch Shorthorn or words to describe it, but Lord Lovat has chosen as his model Cruggleton Perfect, in his opinion the best animal—and more important, the best breeding bull—that he has met in a world experience. This impression, formed nearly ten years ago, seems to have been well borne out by this year's Royal Highland and Royal English Shows, where the supreme champion in both countries had a Perfect pedigree. Cruggleton Pentland Firth is a "double Perfect" and was picked privately for £4000 in preference to another bull running in the same field and of similar breeding, who went on to be supreme champion at Perth, selling for 7000 guineas. Pentland Firth was recently sold for a very high figure to the breeder Denis Cadzow of Duncrahill, and his best son out of a Perfect cow is being kept to mate with his half sisters.

The old cows are full of Naemoor Jasper blood, two sons of this famous sire, Little Loch Broom and Glastullich Sudan having been used in succession. The names of Naemoor Ian and Calrossie Control will also be seen in most of the back pedigrees.

All these cattle will afford an opportunity for breeders to obtain the best possible blood. A good breeding female can lay the foundation of a dynasty that may reign supreme in years to come. The cattle are sold subject to all the re-tests. They are shown in natural condition, straight off the grass and have not been artificially prepared in any way. It is the custom to inoculate all heifer calves at Beaufort with Strain 19 vaccine when six months old. Unless otherwise stated all the cattle have passed the Agglutination Test for Contagious Abortion.

In the case of unserved yearling heifers, and several have been left out deliberately to facilitate buyers from Australia, the animals will be kept and served on the farm before shipment without any extra expense to the buyer.

# CATALOGUE

The following animals are bred by The Lord Lovat, D.S.O., M.C.,  
Beaufort Castle, Beauly, Inverness-shire, unless otherwise mentioned.

## HEIFERS AND HEIFER CALVES

81

### BEAUFORT GOLDEN BELL (L.V.T. G.11), White.

Augusta Rubra—see notes to Lot No. 115.

This bull has been used in the herd, and is warranted as correct. He has been running out all summer.

Passed Agglutination Test for Contagious Abortion on 24th July, 1951.

## REFERENCE TO Sires — BEAUFORT CASTLE HERD.

---

### CRUGGLETON PENTLAND FIRTH (361513), Red.

Bred by Mr. A. J. Marshall, Bridgebank, Stranraer.

Calved 5th October, 1947.

Sire, Cruggleton Aircraft 328332

Sire, Cruggleton Braemar 344560

Dam, 263043 Anna Butterfly

Sire, Cruggleton Perfect 303904

Dam, 230978 Augusta Ramonda

Dam, 240778 Alicia Butterfly

Sire, Garguston Sovereign 291047

Dam, 131182 Princess Camelia

Dam, 263105 Princess Beatrice

Dam, 231029 Princess Betty

Dam, 170176 Princess Benice

Cruggleton Pentland Firth's first bull calves this year sold for an average of £1066, and his second crop of calves are again outstanding.

Princess Beatrice is full sister to Princess Belinda, the great breeding cow in the Beaufort Herd, and to Princess Beth, sold to Mr. Sylvester Campbell, Kinellar.

Princess Betty is full sister to Cruggleton Prince Bob, stock bull at Naemoor.

Cruggleton Braemar is the top sire in Mr. A. J. Marshall's well-known herds.

Cruggleton Aircraft, reserve champion at Perth in 1941, sold for 3000 guineas to Garcia Victorica, where he is breeding exceptionally well.

**DUNCRAHILL BORDER REIVER** (C.D.J. H.14), White.

Bred by Mr. Denis J. Cadzow, Duncrahill, Pencaitland.

Calved 15th March, 1950.

Sire, Cruggleton Adjuster 313395

Dam, 220684 Augusta Claretta

Sire, Cruggleton Benthams 368720

Dam, 275573 Rena Beauty

Dam, 240851 Rubra Beauty

Sire, Cruggleton Perfect 303904

Dam, 220684 Augusta Claretta

Sire, Cruggleton Prescription 315455

Dam, 240851 Rubra Beauty

Sire, Broommount Goodfellow 289810

Dam, 178181 Broommount Eliza 12th

Dam, 230574 Lady Butterfly 1st

Dam, 189691 Silver Butterfly

Dam, 150338 White Butterfly

Duncrahill Border Reiver won 2nd prize in a large class at Perth, 1951, where he was purchased for 950 guineas. He also stood 2nd at Aberdeen Highland Show to Beaufort Benbow.

Rena Beauty, dam of Cruggleton Benthams, is also dam of Cruggleton Balmoral, sold this year for 3000 guineas. Lady Butterfly 1st, dam of Duncrahill Smoky, sold at a high price to Argentina.

**BEAUFORT BULLDOZER** (L.V.T. H.26), Red.

Bred by The Lord Lovat, D.S.O., M.C., Beaufort Castle, Beauly.

Calved 14th September, 1950.

Sire, Cruggleton Braemar 344560

Dam, 263105 Princess Beatrice

Dam, 251310 Cruggleton Orange

Talisman

Sire, Cruggleton Perfect 303904  
Dam, 231020 Orange Thelma

Dam, 190194 Orange Trim

Please note the concentration of Cruggleton Perfect blood in this pedigree.

Cruggleton Orange Talisman is the best breeding cow in the Beaufort Herd. Her first calf was Beaufort Blockbuster, 3rd prize winner in the April class at Perth, and sold to the Argentine for £1250; her second calf, Beaufort Brennen, was 4th prize winner in the April class at Perth, and sold to the Argentine for £1600; her third calf, Beaufort Orange Talisman, a winner at the Royal Show, sold for £1230 to the U.S.A., being the top-prize heifer of her year; her fourth calf, Beaufort Boludo, 1st prize and reserve junior champion at Perth, sold to Messrs. Anderson Brothers for £4200; her fifth calf, Beaufort Butcher Boy, sold to Australia for £500; and her sixth calf is a heifer, which is unsold. Beaufort Bulldozer is number seven, and is considered the best calf she has produced up to date.

Beaufort Bulldozer was 1st in his class at Keith Show this year and also gained prize for best male and supreme champion.
